

The last word from this President:

It is with regret that I am resigning my position as Booster Club President. I have enjoyed working with the other board members immensely and they make it very hard to leave. I have also thoroughly enjoyed working and getting to know many of you.

My daughter, Brooke, has rarely been able to practice (due to overuse of her elbow in gymnastics) since last August and has had to quit gymnastics all together at her doctor's recommendation following her elbow surgery at Children's Mercy Hospital in December.

I could not "jump ship" with a clear conscience, until we got some major things accomplished such as getting the competition season up and going with meet schedules, ordering of leos & warmups, getting the fundraising accomplished, and completing our own major meet, the Winter Cup. Now I feel we are on the downhill side and I can now make an exit without leaving too much in limbo.

You have an outstanding board and they care very much about trying to treat everyone equally and doing what is right for the club as a whole. They put in **a lot** of hard hours outside the gym.

My resignation will be effective at the next Board meeting on January 30, 2008 at which time the gavel will pass to Amy Bartle, Vice President who I know will do a great job for the Club.

I wish all of our gymnasts a very successful year!

Respectfully submitted,

Peggy Leslie
LGBC President
